### **Aims and Outcomes**

Aims	This module aims to enable students to understand business problems issues, particularly at the strategic level. In the process they will acquire the skills and knowledge to formulate a business plan of sufficient robustness and rigour to be acceptable to business executives. Thus students will be exposed to and achieve insights into real-world business issues, which will be addressed with key academic theories and models to develop solutions that meets client needs.
------	---

### After completing the module the student should be able to:
