Outline Syllabus

The Role of Financial Risk Management

2. Identifying & Measuring Risk

3. Credit Risk Management including Securing Payment using Collections (International Rules for Collection URC ICC 522) & Letters of Credit (Uniform Customs & Practice UCP ICC 600

4. Bonds & Guarantees to facilitate international trade and reduce risk

5. The Treasury Function

6. Financial Derivatives

7. Exchange Rates & Risk Management

8. Country Risk Assessment & Management

9. Interest Rate Risk Management

10. Commodity Prices & Risk Management

Learning Activities

Students will be actively involved in the analysis and evaluation of a Case Study throughout the semester.

The Case Study, builds upon Semester 1 International Corporate Finance (Finance Route), with students now engaged in the management of the financial risks involved.

Students will once again be asked to respond to real-time data such as changes in exchange rates, interest rates, oil prices etc and new information such as prices changes, new quotations etc present by the lecturer throughout the semester

Notes

This module is designed to enable students to identify, measure and manage financial risks.
