Category	Short Description	Description	Weighting (%)	Exam Duration
Report	RPT	Individual Report	80	
Reflection	REF	Critical Reflection	20	

Aims

The aims of this module are for students to develop an understanding of the challenges faced by those involved in leading organisations in today's increasingly complex and dynamic global business environment. Students will be introduced to models, concepts and theories. Techniques for critically analysing leadership within organisations and the many facets of interrelations will be introduced and developed over the course of the module.

Learning Outcomes

After completing the module the student should be able to:

- 1 Understand the relevance of leadership and management and the knowledge, skills and behaviours required
- 2 Understand a range of different learning and development initiatives in developing leaders and managers
- 3 Understand the effectiveness of leadership and management development initiatives

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Individual Report	1	2
Critical Reflection	3	

Outline Syllabus

Leadership and Management
Leadership, traits, skills, styles and intelligences
Contingency and LMS Theories of Leadership
Reflective Practice
Charismatic and Transformational Leadership
Leadership and Power
Strategic Leadership and Change
Distributed Leadership
Leadership and Culture
Leadership – issues of Ethics, Sustainability, Authenticity and Toxicity

Learning Activities

The module will be delivered as a series of lectures, tutorials and workshops where individual activities and small group discussions are actively encouraged. To enhance the teaching of this module a range of practical approaches will be used. These will include case-studies, role-plays, decision making and problem solving activities and leader-group discussions.

Notes

This module forms part of the Managing People and Organisations pathway.
