Display Name	Location	Start Month	Duration Number Duration Unit
SEP-PAR	PAR	September	12 Weeks

Aims and Outcomes

Aims	To enable students to work on a project that enables the integration and development of a range of professional skills in the context of the property sector.
------	---

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Reflect and evaluate on your own core, technical and professional skills.
MLO2	2	Critically appraise built environment principles and techniques as they are applied to an industry related project.

Module Content

Outline Syllabus	This module will facilitate the learning process by enabling students to apply the theory gained at all levels into practice. Within the module itself the following areas will be considered and applied to the project: valuation software technology, strategic management of real estate portfolios and relevant legal considerations.
Module Overview	
Additional Information	The central theme of the module is to recognise the roles and responsibilities of stakeholders in the context of the development and management of a large scale property portfolio.
