After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Produce a range of audio-related products to a standard comparable with similar professional products
MLO2	2	Relate production values from extant material to their own work in an innovative rather than purely derivative fashion
MLO3	3	Critically analyse their own work in relation to comparable professional products
MLO4	4	Work with/for external agencies or clients in a professional manner on a distinct project or specific elements of a project
MLO5	5	Critically evaluate the planning and execution of a project, and relate this to the project outcome
MLO6	6	Develop a realistic working production schedule and work to this schedule to a given deadline.

Module Content

Outline Syllabus	As the majority of student learning activity is self-directed, taught syllabus is minimal. However, in order to provide an overarching structure to the module, there are a number of taught sessions covering the following areas: Initial Briefing and Project Proposals, Project Planning and Logistics, Developing a Learning Contract, Analysis and Presentation - these seminar sessions will review the objectives of the written / presentation component of the assessment, and support students in developing this.
