Aims

To enable the student to study the topic in depth from a perspective relevant to the programme of study.

Learning Outcomes

After completing the module the student should be able to:

- 1 Undertake a literature review and demonstrate a sound knowledge of the topic and an ability to analyse and evaluate data and concepts.
- 2 Select and use appropriate methods of investigation.
- 3 Present the results of the study in an appropriate, rigorous and objective form.
- 4 Evaluate the findings and draw appropriate conclusions and make recommendations for further research in the field.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Dissertation	1	2	3	4
--------------	---	---	---	---

Outline Syllabus

Undertake a literature search. Present details and justification of their methodology in a seminar. Collect data. Analyse data using technology where appropriate. Submit the written dissertation.

Learning Activities

Engage in a sustained independent and intensive study, design and execute an enquiry, including the selection and use of appropriate methods of investigation. Students will work individually on their chosen topic, supported by a personal tutor. Personal tutorials will be provided at regular intervals throughout the year. Revision lectures and workshops will be provided to facilitate the research process. Activities will be student centered.

Notes

Examines an aspect of programme of study in detail as directed by the individual student with guidance from tutors. Evidence from this module may contribute to WoW certification.
