#### **Assessment Details**

Category	Short	Description	Weighting	Exam
	Description		(%)	Duration
Essay	AS1	Critical review of service	50	
		management concepts		
Report	AS2	Scenario-based report	50	

#### Aims

To demonstrate an in-depth appreciation of the impact of facilities management services, including the delivery of services, producing productive relationships with stakeholders and providing quality customer experiences and service standards

## **Learning Outcomes**

After completing the module the student should be able to:

- Propose alternative methods and processes for the delivery of quality facilities management services aligned to the needs of customers and organisations
- 2 Critically review strategies for the development and implementation of facilities management support services
- 3 Critically evaluate the ability to develop productive relationships with all stakeholders involved in facilities management services
- 4 Critically apply understanding of how knowledge and information management can be used effectively within facilities management services

## **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

ESSAY 2 3

REPORT 1 2 3 4

# **Outline Syllabus**

Concept of quality management
Service concept, quality and standards
Strategies in providing support services
Relationship management
Customer service
Customer experience and satisfaction
Stakeholder impact analysis
Knowledge and information management

## **Learning Activities**

Lectures are used in order to identify and explain key concepts and theories and provide detailed information on particular subject areas within the module. They help to stimulate the student's interest in the subject area. Lectures may also include guest industry speakers to add industry context to the material.

Workshops are used to engage students in more intensive discussion and activity on particular subject areas within the module. This helps shape the student's own understanding and place the lecture material in context.

#### **Notes**

This module emphasises to students the importance of client care and the ability to manage suppliers, specialists and customers effectively.
