Aims and Outcomes

Aims	To introduce students to the role of the manager and the management process, present ideas on the opportunities and challenges in the business environment, and the use of financial information and management within businesses.
------	--

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Describe management as a process of planning, organizing, leading and controlling
MLO2	2	Present ideas on the opportunities and challenges in the business environment
MLO3	3	Explain the fundamental accounting concepts which underlie the preparation of financial reporting statements
MLO4	4	Analyse the financial statements of a business by selecting appropriate performance indicators for profitability and for liquidity including key accounting ratios

Module Content

Outline Syllabus	<ul style="list-style-type: none"> • The management environment • Planning and Organizing • Monitoring and Controlling • Management versus Leadership • The nature of financial information and application of accounting concepts • The final accounts of limited companies • Interpretation of financial statements • Long-term financial decision making – NPV, Payback, ARR • Short-term financial decision making – costing methods • Sources of finance and methods of financing a business
Module Overview	
Additional Information	This module introduces fundamental knowledge, skills and tools of management used in a modern, commercial business. The finance element provides sufficient information to enable the student to understand key financial measures used within business and the wider economy. Key to the success of the module is for students to apply the knowledge and skills learnt to business situations and gain from sharing ideas and approaches to a wide range of common business situations.
