Aims and Outcomes

Aims	To develop an understanding of teamwork and collaborative decision making with regard to an industry derived project.
------	---

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Apply knowledge and skills developed in level 4 and 5 modules to an industry derived project.
MLO2	2	Develop working relationships using teamwork and leadership skills.
MLO3	3	Express ideas effectively and communicate information appropriately and accurately using a range of media.
MLO4	4	Reflect on own and groups professional development within a teamwork situation.

Module Content

Outline Syllabus	A design and construction project will be set within the context of the Construction Industry. Guest lectures by industry-based practitioners will be built into the workshop timetable to ensure that the project outcomes are relevant and current. Some of the module work should be group work and is a key theme of the module, the intention being to simulate the experience of the workplace, endorsed and approved by the involvement of employers as relevant to the workplace. Students, however, should develop an individual project based on their relevant specialism. Transferable skills will be developed and mapped during the undertaking of the project using appropriate software.
Module Overview	
Additional Information	This module will enable students to apply the knowledge gained from Level 5 modules to a suitable industry derived project. The project will develop a specific skill set within a team role.
