Component	Contact Hours
Lecture	22
Workshop	11

**Grading Basis:** 50 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	Pres	Individual presentation	50	
Report	Report	Case Study	50	

### Aims

*This module aims to develop student understanding of corporate finance sourcing, management and return decisions in a domestic and international context.*

*Students will also engage in the use of corporate financial risk management tools to limit the volatility impact of equity, Forex and debt as a means of corporate financing and operations.*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Critically analyse corporate financing and investing decision issues in both a domestic and international context.
- 2 Systemically appraise corporate owner return and control decisions.
- 3 Interpret corporate financial risk management tools used to limit the impact of forex, debt and equity volatility.
- 4 Identify and evaluate the potential, risks and impact of financial distress.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Presentation	1	2		
Case Study Report	1	2	3	4
