### Aims

*To enable students to successfully design and implement a major piece of independent work, e.g. a review of current practice or literature in a particular area, an audit of a service, an appraisal of systems, and to appropriately present the results of that work.*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Negotiate an appropriate topic with a designated tutor.
- 2 Identify, locate and analyse appropriate scientific/practice literature and delineate the topic for in-depth study
- 3 Critically appraise and review the current situation in the chosen study area
- 4 Summarise the current state of knowledge in the chosen subject area and give reasoned suggestions for further research in the form of a written report.

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:
