Eduardo Cordova-Lopez	Y

Academic Level: FHEQ7
Credit Value: 10.00
Total Delivered Hours: 31.00
Total Learning Hours: 100
Private Study: 69

Delivery Options

Course typically offered: Semester 2

Component	Contact Hours
Lecture	14.000
Tutorial	14.000

Grading Basis: 50 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS1	unseen	40.0	3.00
Presentation	AS2	assignment	30.0	
Reflection	AS3	learning journal	30.0	

Aims

*To critically examine the context and development of International, European and National environmental policies, legislation, regulation and incentives.
To review environmental management systems.*

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically review International, National and Company environmental policies and suggest improvements.
- 2 Critically assess current environmental legislation, regulation and incentives.
- 3 Implement environmental legislation and policies within their own organisations.
- 4 Develop critical awareness of own learning through reflection and research.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM	1	2	
PRESENTATION	1	2	3
LEARNING JOURNAL	3	4	

Outline Syllabus

*The major International declarations and conventions for the environment.
The development of the European Union Environment Programme and the rationale for Directives.
The legal framework and regulations controlling water supply, wastewater disposal, clean air, waste, energy supply and use, and noise.
The operation of the regulatory environmental agencies in the EU and the UK.
Environmental Management systems and Environmental audit.
EIA and SEA.*

Learning Activities

Lectures and tutorials.

Notes

The module develops a critical awareness of the issues behind policy, legislation and regulation, and from this, an ability to work effectively within the current regulatory framework in the field of water, energy and the environment.
