## Module Overview

Building on your earlier learning, this module will support you to confidently engage with a range of values, attitudes and skills that underpin safe and effective clinical practice.

After completing the module, you will be able to actively participate in care with minimal guidance to achieve proficiencies with associated NMC Professional Values, and conduct nursing care to the required NMC standards for progression point 2.

## Additional Information

The Academic Assessor will monitor that the student is completing their hours. This includes any practice placement learning and simulated practice learning, in accordance with the students programme plan. Please note that workshop hours as listed in the above contact hours account for simulated theoretical learning, in accordance with NMC standard 3.4
