Total Learning Hours: 100 **Private Study:** 74

Delivery Options

Course typically offered: Semester 1

Component	Contact Hours
Lecture	12.000
Workshop	12.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	Exam	Exam	100.0	2.00

Aims

To introduce and develop in-depth understanding of psychological issues involved in the course and outcome of long term conditions such as diabetes, heart disease (LTC relevant to NHS/Public Health)

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate critical awareness of behavioural, cognitive and individual difference factors relating to the course and outcome of a range of long term conditions.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM 1

Outline Syllabus

The module will draw on other knowledge gained on the MSc, for example, in psychosocial aspects of health and disease, and examine its relevance and application in the context of pain, diabetes and obesity

Learning Activities

Lectures and workshops
