------	--

**After completing the module the student should be able to:**

**Learning Outcomes**

Code	Number	Description
MLO1	1	Synthesise material from various sources in order to identify, define and defend an appropriate research question.
MLO2	2	Apply methodological rigour in the use of appropriate methods and techniques for problem analysis and investigation.
MLO3	3	Critically evaluate the implications of research findings.
MLO4	4	Communicate research findings using agreed standards of convention.

**Module Content**

Outline Syllabus	This will be negotiated between the supervisor and student.
Module Overview	<p>The dissertation module offers you an opportunity to explore, in depth, an area of personal or professional interest that relates to your programme of study. In doing this, you will expand your research skills and apply what you have learned in the earlier modules to your research project. It enables you to:</p> <p>develop the skills necessary to plan and execute a research project that is relevant to their area of study</p> <p>effectively communicate research outcomes to an appropriate audience</p>
Additional Information	The dissertation module offers students an opportunity to explore, in depth, an area of personal or professional interest that relates to their programme of study. In doing this, they will expand their research skills and apply what they have learned in the earlier modules to their research project.
