### Aims

*The aim of this module is to provide opportunities for students to develop themselves as part of a team working as consultants on a business finance project, applying theoretical knowledge in a practical environment. Front loaded inputs through workshops will support students in managing the project and working effectively with stakeholders. Addressing the brief will be guided by academics and regular feedback maintained through a series of weekly presentations demonstrating progress through*

*the project. Tutorials are also provided to review progress and support students through this consultancy project.*

## **Learning Outcomes**

After completing the module the student should be able to:

- 1 Critically evaluate business practice within theoretical frameworks
- 2 Provide detailed analysis of the sector, make interpretations and draw conclusions to apply strategic decision making in a specific organizational context and to achieve the project aim
- 3 Communicate information evidencing the decision making journey reflecting professional standards in consultancy work
- 4 Critically reflect on the learning process and how that learning may be applied in a variety of future business scenarios
