Title: LONG TERM CONDITIONS IN PRIMARY CARE
Status: Definitive
Code: **7008PCCOMM** (106911)
Version Start Date: 01-08-2014

Owning School/Faculty: Centre for Public Health
Teaching School/Faculty: Centre for Public Health

Team	Leader
Analie-Jayne Grimshaw	Y

Academic Level: FHEQ7
Credit Value: 15.00
Total Delivered Hours: 32.00
Total Learning Hours: 150
Private Study: 118

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	30.000
Tutorial	2.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Essay	AS1	Case study 1500 words	50.0	
Reflection	AS2	Reflective account meeting identified competencies in Practice Evidence Tool (2000 words)	50.0	

Aims

To provide the student with the necessary knowledge and insight to ensure a coordinated approach to the management of patients/clients in the community with a long term health need.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically evaluate the impact of national frameworks and guidelines on the provision of care for patients with long term health needs.
- 2 Demonstrate the skills necessary in the development of therapeutic strategies with patients clients and carers which involve decision making, the promotion of independence and self care skills.,
- 3 Demonstrate a critical understanding of the aetiology, pathophysiology and disease processes of a specific long term condition.
- 4 Critically explore the barriers to multi-disciplinary, inter-agency and partnership working in the management of long-term conditions, and synthesise possible solutions.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

CASE STUDY	1	3
REFLECTION	2	4

Outline Syllabus
