Debi Allcock	

Academic Level: FHEQ7 **Credit Value:** 20.00 **Total Delivered Hours:** 64.00
Total Learning Hours: 200 **Private Study:** 136

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	28.000
Online	5.000
Seminar	12.000
Tutorial	16.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS1	Examination	80.0	3.00
Presentation	AS2	Evidence-based practice presentation (20 minutes)	20.0	
Practice	AS3	Clinical practice assessment: must be passed	0.0	

Aims

To prepare students to assess, diagnose and manage the variety of well and ill child issues that commonly present among infants and young children in ambulatory

settings.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate depth of knowledge in the assessment, diagnosis and management of common conditions affecting infants and young children.
- 2 Synthesise child protection principles and the safeguarding agenda with age-specific assessment and management of infants and young children.
- 3 Critically examine the evidence base relating to common health problems and child protection among infants and young children.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM	1	2
Presentation	3	
Clinical Placement	1	2 3

Outline Syllabus

Principles of childhood immunisations and new vaccine development
Infectious disease in infants and young children
Anaemia
Upper respiratory illness
Lower respiratory illness
ENT conditions
Murmurs
Reflux, constipation and Otis
Eczema, cradle cap psoriasis
Toxic synovitis, osteomyelitis and DDH
Fever in infants and young children
Safeguarding and child protection in infants and young children
CAMHS issues in infants and young children
Failure to thrive

Learning Activities

Interactive lectures, seminars, tutorials; on-line discussion boards; problem-based learning exercises; evidence-based practice presentations; self-directed and reflective learning; video streaming; reflective practice; clinical supervision and case presentations.

Notes

The clinical experience for this module consists of 75 hours of precepted practice (pass/fail) with a relevant, registered health care professional in an appropriate clinical setting. The assessment of practice will be the responsibility of the clinical preceptor; unless competence is demonstrated in practice, credit will not be released.
