Aims

To prepare students to assess, diagnose and manage the variety of minor injury and paediatric emergencies that commonly present in ambulatory settings.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate mastery in the assessment, diagnosis and management of paediatric minor injuries and emergencies affecting infants, young children, school-agers and adolescents.
- 2 Synthesise child protection principles and the safeguarding agenda with age-specific assessment and management of infants, children and adolescents.
- 3 Demonstrate advanced communication skills in the paediatric emergency setting.
- 4 Critically evaluate the evidence base relating to paediatric emergencies and minor injuries among infants, young children, school-agers and adolescents.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM	1	2	
Presentation	4		
Practice	1	2	3

Outline Syllabus

Infectious disease emergencies

Acute abdominal emergencies

Acute scrotum and gynaecological emergencies

CAMHS emergencies

Neurological emergencies: febrile seizures, status epilepticus, head trauma

Respiratory emergencies: stridor, epiglottitis, status asthmaticus, foreign bodies

ENT emergencies: eye trauma, peri-orbital cellulitis, neck masses

Allergic emergencies: anaphylaxis and urticaria

APLS scenarios

Child protection and safeguarding issues in A/E

Sprains, strains and fractures: hand and wrist

Sprains, strains and fractures: elbow and shoulder

Sprains, strains and fractures: foot and ankle

Sprains, strains and fractures: knee and hip

DKA

Burns and lacerations

Learning Activities

Interactive lectures, seminars, tutorials; on-line discussion boards; problem-based learning exercises; evidence-based practice presentations; self-directed and reflective learning; video streaming; reflective practice; clinical supervision and case presentations.

Notes

The clinical experience for this module consists of 120 hours of precepted practice (pass/fail) with a relevant, registered health care professional in an appropriate clinical setting. The assessment of practice will be the responsibility of the clinical preceptor; unless competence is demonstrated in practice, credit will not be released.
