

Liverpool John Moores University

Title: ADVANCED PAEDIATRIC AND NEONATAL HEALTH ASSESSMENT
Status: Definitive
Code: **7012NPAPP** (100492)
Version Start Date: 01-08-2014

Owning School/Faculty: Nursing and Allied Health
Teaching School/Faculty: Nursing and Allied Health

Team	Leader
Cheryl Clarke	Y
Cath Barry	
Debi Allcock	

Academic Level: FHEQ7 **Credit Value:** 20.00 **Total Delivered Hours:** 74.00
Total Learning Hours: 200 **Private Study:** 126

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Lecture	35.000
Online	8.000
Seminar	12.000
Tutorial	16.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	AS1	Examination	80.0	3.00
Presentation	AS2	Evidence-based practice presentation (20 minutes)	20.0	

Competency	Practice
-------------------	----------

Aims

To prepare the student to undertake and appropriately document a comprehensive health assessment of neonates, infants, children and adolescents. IN addition, the student will synthesise the principles related to the health promotion/health protection and disease prevention as they relate to advanced paediatric and neonatal health assessment.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate, articulate and record a comprehensive and developmentally appropriate advanced health assessment.
- 2 Demonstrate depth of knowledge with regard to the normal and abnormal variants that could potentially impact upon the health and well-being of the child and/or family unit.
- 3 Demonstrate depth of knowledge with regard to advanced communication and consultation skills, health promotion and protection, and safeguarding children.
- 4 Critically examine the current evidence base with regard to health assessment in the care of neonates, infants, children and adolescents.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

EXAM	2	3
EBP	4	
Practice	1	2 3

Outline Syllabus

Neonatal screening
Advanced communication skills and interviewing
History-taking
Family assessment
Cultural considerations
Developmental assessment
Nutritional and growth assessment
P/E techniques
Assessment of general appearance
Assessment of the integumentary system
Assessment of the head, eyes, ears, nose and throat
Assessment of the lymph system
Assessment of the cardiovascular system
Assessment of the thorax and lungs
Assessment of the abdomen
Assessment of the genitalia

Assessment of the neurological system
Assessment of the MSK system
Assessment of the NB
Child health surveillance and the 6-8 week check
Health promotion and anticipatory guidance
Safeguarding and the Child Assessment Framework (CAF)
 CAMHS

Learning Activities

Interactive lectures, seminars, tutorials; on-line discussion boards; problem-based learning exercises; evidence-based practice presentations; self-directed and reflective learning; video streaming; reflective practice; clinical supervision and case presentations.

Notes

The clinical experience for this module consists of 75 hours of precepted practice (pass/fail) with a relevant, registered health care professional in an appropriate clinical setting. The assessment of practice will be the responsibility of the clinical preceptor; unless competence is demonstrated in practice, credit will not be released.

The clinical practice assessment and OSCE assessment components must be passed.
