

## Independent Study

### Module Information

2022.01, Approved

#### Summary Information

Module Code	7013PUBHEA
Formal Module Title	Independent Study
Owning School	Public Health Institute
Career	Postgraduate Taught
Credits	10
Academic level	FHEQ Level 7
Grading Schema	50

#### Teaching Responsibility

LJMU Schools involved in Delivery
Public Health Institute

#### Learning Methods

Learning Method Type	Hours
Tutorial	10

#### Module Offering(s)

Display Name	Location	Start Month	Duration Number Duration Unit
JAN-CTY	CTY	January	12 Weeks

#### Aims and Outcomes

Aims	To provide students with an opportunity to develop their own learning and knowledge base in a publichealth topic of their own choosing.
------	---

**After completing the module the student should be able to:**

#### Learning Outcomes

Code	Number	Description
MLO1	1	Plan, develop and present their own learning around a public health topic.
MLO2	2	Critically analyse relevant public health literature in relation to their chosen topic

## Module Content

Outline Syllabus	No specific syllabus - as each student will select their own area of public health to investigate. Independent learning. Report writing tutorial.
Module Overview	This module aims to develop your knowledge of public health topic that is suited to your own needs but which fulfills the learning outcomes for the module, it focuses on literature review rather than an empirical study related to the field. It provides you with an opportunity to develop your own learning and knowledge base in a public health topic of your own choice.
Additional Information	This module provides students with an opportunity for the study of a public health topic that is suited to their own needs but which fulfils the learning outcomes for the module. This topic may relate to the student's own field of work and in the past topics have addressed issues such as: Working in Partnership to Improve mental health; Smoke Free Initiatives and Reviewing Research Governance Procedure. It is expected that students will discuss their topic ideas with the module leader, identifying the aim and objectives as well as any relevant learning activities, before commencing their report. Students should note that the aim of this module is not to produce a mini –dissertation; the emphasis is on a relatively short literature review rather than an empirical study or systematic review. Students are also advised not to use their dissertation subject as a topic for this module, as this may lead to problems around self-plagiarism.
