**Academic Level:** FHEQ7      **Credit Value:** 15      **Total Delivered Hours:** 39  
**Total Learning Hours:** 150      **Private Study:** 111

### Delivery Options

Course typically offered: Runs Twice - S1 & S2

Component	Contact Hours
Workshop	39

**Grading Basis:** 40 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Group Presentation.	50	
Report	AS2	Individual written coursework.	50	

### Aims

*To investigate the context and processes of project management and to develop skills in the use of project management techniques.*

### Learning Outcomes

After completing the module the student should be able to:

- 1 Critically evaluate organisational approaches to project management.
- 2 Analyse the concepts of stakeholders, success criteria and critical success factors in the context of projects.
- 3 Critically evaluate methods for the management of the project life cycle.
- 4 Select and apply methods, tools and techniques for planning, monitoring and controlling projects and for managing risk.
- 5 Analyse the skills and competencies required of the project manager, including the use of computer software packages for managing information.

### **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Presentation	2	4	5
Assignment	1	3	

### **Outline Syllabus**

- *Concepts associated with Projects and Project Management*
- *Project Success and Failure*
- *Project Life Cycle Management*
- *Role of the Project Manager*
- *Organisational Approaches to Project Management*
- *Planning Implementing, Monitoring and Controlling*
- *Project Management Information Systems*
- *Use of Microsoft Project for planning, monitoring and controlling*

### **Learning Activities**

Workshops, to include: tutor mini lecture, discussion of current business and management theories, case study analysis, reflection on learning experiences, facilitated group discussion, group problem solution, application of theory to practice, the giving and receiving of feedback.

### **Notes**

Project Management requires project management knowledge, transferable skills, such as presenting, and the ability to use project management tools, such as 'MS-Project'. The coursework will include a group submission involving the simulation of a project team, with students working together to plan and define a project of their choice, which has been agreed by the tutor. Project teams are required to present their findings to tutors from the module team. Formative feedback will be provided on this piece of work before the submission of the final part of the coursework which is assessed as an individual's piece of work.
