Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	AS1	assignment	100.0	

Aims

To develop the requisite project management skills and knowledge necessary for the successful strategic and operational management of complex construction projects via the appraisal and application of current theory and principles.

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically review and assess the validity of organisational theory that underpins current project management practice.
- 2 Coordinate and control a complex construction project, throughout the project life cycle.
- 3 Critically appraise and identify appropriate project management structures for a variety of projects.
- 4 Utilise and appraise the current Project Management software.
- 5 Critically examine the tools and techniques of project planning.

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

PORTFOLIO 1 2 3 4 5
