

Liverpool John Moores University

Title: Research for specialist practice
Status: Definitive
Code: **7047PCCOMM** (119836)
Version Start Date: 01-08-2014

Owning School/Faculty: Nursing and Allied Health
Teaching School/Faculty: Nursing and Allied Health

Team	Leader
Colin Jones	Y

Academic Level: FHEQ7
Credit Value: 15.00
Total Delivered Hours: 32.00
Total Learning Hours: 150
Private Study: 118

Delivery Options

Course typically offered: Runs Twice - S1 & S2

Component	Contact Hours
Lecture	30.000

Grading Basis: 40 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Exam	exam		50.0	2.00
Essay	protocol		50.0	

Aims

- 1. To enable the students to examine a variety of research methods, used within the sphere of health and social care practice and development.*
- 2. To enable the students to develop skills in critical evaluation of literature available within the field of health and social care development and clinical management.*

Learning Outcomes

After completing the module the student should be able to:

- 1 Critically analyse the significance of research questions in determining research design.
- 2 Critically analyse the research process in quantitative and qualitative methodologies
- 3 Synthesise the suitability of research methods used within the health and social care context
- 4 Critically evaluate literature in health and social care development utilising a systematic approach

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

research exam	2	3	
research protocol	1	3	4

Outline Syllabus

1. *Approaches to research. The research process.*
2. *Quantitative designs and methods. Types of data collection in quantitative research. Types of analysis of quantitative data. Components of critical appraisal in quantitative research.*
3. *Qualitative methods. Introduction to phenomenology, ethnography, grounded theory, naturalistic inquiry. Types of data collection methods in qualitative research. Elements of critical appraisal in qualitative research.*
4. *Barriers to research implementation and dissemination.*
5. *Protection of research participants. Ethical issues in research.*

Learning Activities

Group tutorials with discussions about jointly read evidence-based articles in the fields of health and social care development and clinical management.
