Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Written coursework	100	

Aims

To provide students with insight to global trends in port administration and governance

Learning Outcomes

After completing the module the student should be able to:

- 1 Identify and evaluate global trends in port functions, administration and governance
- 2 Critically analyse port administration models and ownership arrangements
- 3 Appraise the merits of public and private sector involvement in port affairs

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Written coursework	1	2	3
--------------------	---	---	---

Outline Syllabus

Port facilities, services and terminal logistics

Port roles – cargo handling, economic and logistics

Port authority functions (regulatory, operational, landlord and community management) and administration models.

Port ownership, reform concepts and privatisation options

Service quality, corporate social responsibility and performance

Learning Activities

A programme of lectures supported by tutorials

Notes

This module provides students with an overview of the global port industry and the evolving role of ports. Students will gain appreciation of the diverse functions of port authorities and examine the public interests and commercial factors that influence the administration of ports at national level, and governance of ports at the corporate level.
