Title: MEDICINES USE IN CANCER: APPLICATION TO PRACTICE
Status: Definitive
Code: **7104CPPHAR** (121037)
Version Start Date: 01-08-2020

Owning School/Faculty: Pharmacy & Biomolecular Sciences
Teaching School/Faculty: Pharmacy & Biomolecular Sciences

Team	Leader
Kate Shemilt	Y
David Breen	

Academic Level: FHEQ7 **Credit Value:** 10 **Total Delivered Hours:** 5
Total Learning Hours: 100 **Private Study:** 190

Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Placement/Practice	95
Tutorial	5

Grading Basis: Pass/Not Pass

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Portfolio	Portfolio	Prof.practice portfolio	100	

Aims

To apply a knowledge of cancer and its treatment to pharmaceutical care for patients

Learning Outcomes

After completing the module the student should be able to:

- 1 Apply knowledge of the pharmacological management of key conditions encountered in cancer to help patients and their families to cope with routine issues
- 2 Provide other health and social care professionals with sound and clear advice, recommendations or information regarding medicines use issues in cancer
- 3 Demonstrate a commitment to continuing advancement of own and others knowledge and understanding with respect to medicines use in cancer through maintenance of a professional practice portfolio

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Prof. practice portfolio	1	2	3
--------------------------	---	---	---

Outline Syllabus

Students will be given one-to-one support to develop of a portfolio of evidence to include demonstration of practice in line with Advanced Stage 1 of the RPS Expert Professional Practice Curriculum for Cancer Care.

Learning Activities

Students will build a professional practice portfolio through their work to demonstrate that they meet the learning outcomes of the module. This will be measured by successfully meeting relevant professional standards.

Notes

This module forms part of the CPD Medicines Use in Cancer. It will be delivered via distance learning through the University's Blackboard platform. Students will build a professional practice portfolio through their work to demonstrate that they meet the learning outcomes of the module. This will be measured by successfully meeting relevant professional standards.
