Report	reflection	Critical reflection	100	

Competency	Pharmacy Practice
-------------------	-------------------

Aims

The aim of this module is to develop pharmacists to facilitate effective prescribing considering clinical, ethical and legal factors, and prescribing in a wider context. If undertaken with modules 7111CPPHAR (Therapeutics in Specialist Clinical Practice) and 7114CPPHAR (Clinical Skills), students can gain a Certificate in Independent Prescribing.

The module requires students to demonstrate learning outcomes, via signoff by their Designated Medical Practitioner and through portfolio entries and other activities. Students have a maximum of 3 attempts over a maximum period of 12 months after achieving the module pass mark in which to demonstrate that they meet these learning outcomes.

Learning Outcomes

After completing the module the student should be able to:

- 1 Demonstrate effective communication and person-centred care in patient care in an interprofessional team
- 2 Choose, or make recommendations on the most appropriate treatment by applying clinical knowledge to critically review patient care through use of appropriate information sources
- 3 Demonstrate safe and cost effective prescribing taking into account legal, ethical and professional considerations in the context of local and national guidance
- 4 Appraise own competence and limitations as a prescriber and formulate a development plan to address weakness identified
- 5 Keep appropriate records and work within relevant clinical governance frameworks

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Critical reflection	1	2	3	4	5
Pharmacy Practice	1	2	3	4	5

Outline Syllabus

*Consultation, decision-making. assessment and review
Influences on and psychology of prescribing
Prescribing in a team context
Applied therapeutics
Evidence-based practice and clinical governance
Legal, policy, professional and ethical aspects
Prescribing in a public health context*

Learning Activities

Workshops

Workplace-based learning
Tutorials
Self directed study

Notes

This module aims to prepare pharmacist for prescribing roles. If undertaken with module 7111CPPHAR & 7114CPPHAR , students can gain a Certificate in Independent Prescribing.
