Seminar	3
Tutorial	2
Workshop	9

Grading Basis: 50 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Presentation	Med Safety	Medicines safety presentation	30	
Essay	Ref Essay	Reflective essay	70	

Aims

This module aims to develop integrated knowledge of medicines use (including

evidence base, national standards, funding arrangements and cost effectiveness) in supporting practitioners to deliver patient-centred care.

Learning Outcomes

After completing the module the student should be able to:

- 1 Identify and appraise medicines safety issues in a defined area of practice and propose strategies to mitigate these risks
- 2 Appraise medicines use in a defined area of practice against relevant national standards
- 3 Implement evidence based medicine and best practice in the management of individual patients, whilst highlighting gaps / limitations in the evidence base
- 4 Evaluate the challenges associated with delivering personalised care to individual patients
- 5 Critically evaluate your competence as a practitioner and develop a proactive approach to keeping knowledge and skills up-to-date

Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

Medicine Safety presentation	1	2			
Reflective essay	2	3	4	5	

Outline Syllabus

- *NHS England patient safety alerts*
- *Local and national drivers relating to medicines use*
- *Funding of drugs in NHS*
 - o *Tariff vs PBR exclusion*
 - o *Horizon scanning*
