## Module Overview

This module provides a theoretical foundation to Specialist Community Public Health Nursing (SCPHN) and you will be able to build on its content to develop innovative and creative practice.

Students are required and facilitated to extend their theoretical learning to apply to their own core settings / clients, and this is reflected in the assignments. In addition there are route specific sessions with a health visitor or school nurse focus.

On completion of this module, you will be able to work with individuals, families and communities to improve, promote and protect their health and well being and reduce inequalities.

## Additional Information
