Evidence-based practice and clinical governance in relation to nurse prescribing; 6. Legal, policy and ethical aspects; 7. Professional accountability and responsibility; 8. Prescribing in the public health context

Module Overview

This module builds on the specialist knowledge acquired in Contemporary issues in SCPHN Part 1. You will develop your knowledge and abilities in SCPHN practice.

This module will continue to provide a theoretical foundation to SCPHN practice and enable practitioners to develop innovative and creative practice. This module includes community practitioner prescribing.

This module is for students without an existing recordable prescribing qualification.

Additional Information

This module will continue to provide a theoretical foundation to SCPHN practice and enable practitioners to develop innovative and creative practice. In this module students are required and facilitated to extend their theoretical learning to apply to their own core settings / clients, and this is reflected in their assignments. In addition there are route specific sessions with a health visitor or school nurse focus. The Practice Evidence Tool must be passed in order to pass this module. This module includes community practitioner prescribing which is assessed by an exam. The pass mark is 80%, however the numeracy questions must score 100%. Additionally, if any answers suggest risking the patient's health, the exam will be marked as a fail. The prescribing competences in the V100 Practice Competency Framework Document must also be passed. The prescribing element of this module is graded as pass / fail. Learning Outcome for V100 Nurse Prescribing Practice within a framework of professional accountability and responsibility to apply and display knowledge of drug action in prescribing practice to provide a rationale to support the decision making process in safe, appropriate and cost-effective prescribing within area of individual practice.
