Robert Askwith	

**Academic Level:** FHEQ7  
**Credit Value:** 60  
**Total Delivered Hours:** 24  
**Total Learning Hours:** 600  
**Private Study:** 576

### Delivery Options

Course typically offered: Standard Year Long

Component	Contact Hours
Tutorial	24

**Grading Basis:** 50 %

### Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	AS1	Interim Report	5	
Presentation	AS2	Final Presentation	5	
Report	AS3	Dissertation	90	

### Aims

*To develop the student's ability to plan, execute and report in depth on a major investigation. This may be carried out, where appropriate, in conjunction with industry.*

### Learning Outcomes

After completing the module the student should be able to:

- 1 Research the particular domain or topic in which the investigation takes place using independent study.
- 2 Analyse problems and implement a realisable solution using their previous experience and skills gained during the course and and identify relevant Legal, Social, Ethical and Professional Issues associated with the project.
- 3 Structure and write a major dissertation.
- 4 Communicate effectively the technical, methodological and managerial aspects of a complex project, orally and with the aid of suitable presentation support tools.

### **Learning Outcomes of Assessments**

The assessment item list is assessed via the learning outcomes listed:

Interim Report	1	
Presentation	4	
Dissertation	2	3

### **Outline Syllabus**

*Self-directed, individual study, research and the writing up of a dissertation.*

### **Learning Activities**

A project is defined by the student in consultation with the project supervisor and the subject tutor. The nature of the project will be a substantial investigation, analysis of a problem domain, creation of software, or development of systems. Regular tutorial activities will take place with the project supervisor.

### **Notes**

The module aims at developing the student's ability to plan, execute and report in depth on a major investigation.
