Nursing and Allied Health

### Learning Methods

Learning Method Type	Hours
Lecture	28
Seminar	6
Tutorial	3
Workshop	21

## Module Offering(s)

Offering Code	Location	Start Month	Duration
JAN-CTY	CTY	January	12 Weeks

## Aims and Outcomes

<b>Aims</b>	The aim of this module is to enable the student to critically review knowledge relating to the development of specialist district nursing practice. This will enable them to develop the knowledge and skills to become an effective leader who can manage the care of individuals and groups within the community setting. Students who already hold a V150/300 qualification will register on Specialist Practice 2 - Contemporary Issues in District Nursing module (7144PCCOMM), which does not include V100 as part of the syllabus.
-------------	---

## Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Critically evaluate how the district nurse can contribute to strategies designed to promote health and prevent disease in individuals and groups, and synthesise with critique, an understanding of the leadership and management skills required to lead and manage a team
MLO2	Appraise the management of programmes of care for patients with a variety of complex health needs and/or long term conditions, and the role of the patient and carer as a partner
MLO3	Justify and evaluate with confidence the analysis and development of the role of the District Nurse in providing high quality, cost effective and equitable evidence-based care management as appropriate
MLO4	Synthesise with critique effective collaboration and partnership working within multidisciplinary contexts
MLO5	Practice within a framework of professional accountability and responsibility to apply and display knowledge of drug action in prescribing practice to provide a rationale to support the decision making process in safe, appropriate and cost-effective prescribing within area of individual practice
MLO6	Demonstrate competence in relation to the professional standards of practice for the role

## Module Content

Evidence-based practice and clinical governance in relation to nurse prescribing; 6. Legal, policy and ethical aspects; 7. Professional accountability and responsibility; 8. Prescribing in the public health context

### Module Overview

This module will enable you to develop the knowledge and skills to become an effective leader who can manage the care of individuals and groups within the primary care setting.

### Additional Information

The aim of this module is to enable the student to critically review knowledge relating to the development of specialist district nursing practice. This will enable them to develop the knowledge and skills to become an effective leader who can manage the care of individuals and groups within the community setting. The Practice Evidence Tool must be completed and passed by the end of this module. This module includes V100 community practitioner prescribing which is assessed by an exam. The pass mark is 80%, however the numeracy questions must score 100%. Additionally, if any answers suggest risk to a patient's health, the exam will be marked as a fail. The prescribing competences in the V100 Practice Competency Framework Document must also be passed. The prescribing component of this module is graded as pass/fail.
