Module Content

Outline Syllabus	<p>Contemporary Policy context National Framework for Children and Young People's Continuing Care Assessment, submission and appeals of CYPCC cases Clinical governance/risk management within CCN Commissioning groups/business planning Care of the ventilated child within the community Role of the Advanced Paediatric Nurse Practitioner/Community Matron/Palliative Care Reflect on service user involvement and feedback Collaboration with key stakeholders and commissioners Clinical supervision/ reflective practice User involvement in the development of services - feedback and evaluation of established services Improving health outcomes for vulnerable groups Analysing reflective skills for practice Nurse Prescribing (V100): 1. Consultation, decision-making and therapy, including referral; 2. Influences on, and psychology of, prescribing; 3. Prescribing in a team context; 4. Clinical pharmacology, including the effects of co-morbidity; 5. Evidence-based practice and clinical governance in relation to nurse prescribing; 6. Legal, policy and ethical aspects; 7. Professional accountability and responsibility; 8. Prescribing in the public health context</p>
Module Overview	<p>The focus of the module is on the future development and sustainability of children's community nursing services. This will enable students to become proficient, effective change agents and equip them to develop community children's nursing services of the future and meet the diverse needs of children and young people.</p> <p>During the module, you will examine the key policy drivers responsible for shaping the future of community children's nursing, along with how challenges can be overcome and thinking outside of the box to identify innovative ways to meet future requirements will be explored.</p> <p>You will be encouraged to think at a strategic level about the development and organisation of children's services. This will involve both operational and management issues as well as working with key stakeholders to implement a vision for children's community nursing services. The Practice Evidence Tool must be completed and passed by the end of this module.</p> <p>This module includes community practitioner prescribing which is assessed by an exam. The pass mark is 80%, however the numeracy questions must score 100%. Additionally, if any answers suggest risking the patient's health, the exam will be marked as a fail. The prescribing competences in the V100 Practice Competency Framework Document must also be passed. The prescribing element of this module is graded as pass / fail. Learning Outcome for V100 Nurse Prescribing Practice within a framework of professional accountability and responsibility to apply and display knowledge of drug action in prescribing practice to provide a rationale to support the decision making process in safe, appropriate and cost-effective prescribing within area of individual practice.</p> <p>You will undertake this module if you do not currently hold a V150/300 qualification, otherwise you will undertake the version of the module without V100 Nurse Prescribing as detailed above.</p>
Additional Information	<p>The focus of the module is on the future development and sustainability of children's community nursing services. This will enable students to become proficient, effective change agents and equip them to develop community children's nursing services of the future and meet the diverse needs of children and young people. The module will examine the key policy drivers responsible for shaping the future of community children's nursing. Overcoming challenges and thinking outside of the box to identify innovative ways to meet future requirements will be explored. This module will encourage and support students to think at a strategic level about the development and organisation of children's services. This will involve both operational and management issues as well as working with key stakeholders to implement a vision for children's community nursing services. The Practice Evidence Tool must be completed and passed by the end of this module. This module includes community practitioner prescribing which is assessed by an exam. The pass mark is 80%, however the numeracy questions must score 100%. Additionally, if any answers suggest risking the patient's health, the exam will be marked as a fail. The prescribing competences in the V100 Practice Competency Framework Document must also be passed. The prescribing element of this module is graded as pass / fail. Learning Outcome for V100 Nurse Prescribing Practice within a framework of professional accountability and responsibility to apply and display knowledge of drug action in prescribing practice to provide a rationale to support the decision making process in safe, appropriate and cost-effective prescribing within area of individual practice.</p>
