Academic Level: FHEQ7 **Credit Value:** 30 **Total Delivered Hours:** 50
Total Learning Hours: 300 **Private Study:** 250

Delivery Options

Course typically offered: Non Standard Year Long

Component	Contact Hours
Off Site	50

Grading Basis: 50 %

Assessment Details

Category	Short Description	Description	Weighting (%)	Exam Duration
Report	People	3,000 words	43	
Essay	Project	4,000 words	57	

Aims

The Aims should be read in conjunction with important information in the Notes section.

To investigate the context and processes of project management and to develop skills in the use of project management techniques and

To equip students to apply the theory and practice of leadership to their own development as project managers and that of others as managers and leaders in changing organisational contexts.

Learning Outcomes

After completing the module the student should be able to:

- 1 Identify the significance of team leadership for project success.
- 2 Discuss intercultural differences and accommodating such differences.
- 3 Recognise complexity in projects and describe leadership techniques for addressing complexity.
- 4 Identify techniques for project scheduling and techniques for maintaining project control.
- 5 Demonstrate an ability to organise projects taking account of location context.
- 6 Demonstrate an ability to control project costs.
- 7 Develop a scope of work for project players, demonstrating critical approach for different global regions.
- 8 Discuss principles of public law connected to projects and implications of not meeting legal obligations.
- 9 Identify the legal principles of transnational contracts.
