Offering Code	Location	Start Month	Duration
SEP-MTP	MTP	September	12 Weeks

Aims and Outcomes

Aims	To provide students with knowledge and understanding of the context of the architect and the construction industry, including the architect's role in the processes of procurement and building production under UK legislation.
-------------	--

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Appraise design projects and practice in the context of current policy, regulation, legislation, and requirements of sustainable design. (GC4.3, GC6.1 / 6.2, GC11.1 / 11.3).
MLO2	Differentiate between how the various disciplines (clients, users, constructors, co-professionals and wider society) integrate in procuring and progressing a development proposal. (GC6.1 / 6.2, GC11.2).
MLO3	Appraise current issues affecting professional practice and speculate on future directions. (GC6.2, GC11.3).

Module Content

Outline Syllabus
To provide students with knowledge about twelve key aspects of contemporary architectural practice in order that they have a strong foundation for entry into the ARB / RIBA Part 3 period of their education.

Module Overview
This module aims to develop your knowledge and understanding of the context of the architect and the construction industry, including the architect's role in the processes of procurement and building production under UK legislation.

Additional Information

On behalf of the teaching team, welcome to the Management Practice and law module, this is an exciting opportunity to be directly involved in 'live' architectural projects within the North West region. You will be working, in groups, with real clients on a variety of projects identified by them with a member of staff as a mentor. You will act as a 'mini practice' and resolve and advise your respective clients on professional issues.

Assessments
