

# Integrated Project

## Module Information

2022.01, Approved

### Summary Information

|                     |   |
|---------------------|---|
| Module Code         | 7409BEPG                                |
| Formal Module Title | Integrated Project                      |
| Owning School       | Civil Engineering and Built Environment |
| Career              | Postgraduate Taught                     |
| Credits             | 10                                      |
| Academic level      | FHEQ Level 7                            |
| Grading Schema      | 50                                      |

### Teaching Responsibility

|   |
|---|
| LJMU Schools involved in Delivery       |
| Civil Engineering and Built Environment |

### Learning Methods

| Learning Method Type | Hours |
|----------------------|-------|
| Workshop             | 15    |

### Module Offering(s)

| Display Name | Location | Start Month | Duration Number Duration Unit |
|--------------|----------|-------------|-------------------------------|
| JAN-CTY      | CTY      | January     | 12 Weeks                      |

### Aims and Outcomes

|      |  |
|------|--|
| Aims | To allow students to apply the theory and concepts into a project scenario working with a collaborative approach to develop team skills. |
|------|--|

**After completing the module the student should be able to:**

### Learning Outcomes

| Code | Number | Description   |
|------|--------|---|
| MLO1 | 1      | Critically evaluate collaborative working approaches and their influence on the success of a project. |
| MLO2 | 2      | Critically assess collaborative working practices on an industry project.                             |
| MLO3 | 3      | Critically analyse their own skills and reflect on their own personal development.                    |

## Module Content

|                        |   |
|------------------------|---|
| Outline Syllabus       | Collaborative working practices<br>Skills development<br>Personal development<br>The content of the module is drawn from the core modules within the programme that will then be applied to a project scenario.   |
| Module Overview        |   |
