#### Partner Module Team

Contact Name	Applies to all offerings	Offerings
--------------	--------------------------	-----------

### Teaching Responsibility

<b>LJMU Schools involved in Delivery</b>
Civil Engineering and Built Environment

### Learning Methods

Learning Method Type	Hours
----------------------	-------

Lecture	11
Workshop	22

## Module Offering(s)

Offering Code	Location	Start Month	Duration
JAN-CTY	CTY	January	12 Weeks
SEP-CTY	CTY	September	12 Weeks

## Aims and Outcomes

<b>Aims</b>	To develop students' knowledge and critical understanding of planning and sustainable development in the built environment.
-------------	---

## Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Distinguish and critically evaluate planning policies, objectives and procedures.
MLO2	Identify and analyse the practical application of planning policy at national and local levels, and evaluate their impact on sustainable development.
MLO3	Analyse and critically evaluate the various laws and procedures used in the control of sustainable development.
MLO4	Present to a professional standard the formulation and evaluation of a property development scenario working in collaboration with others.

## Module Content

<b>Outline Syllabus</b>
Planning framework and development plans. Application of planning policies at national and local levels. Planning control, the development process and compulsory purchase. Sustainable and inclusive urban design and application. Regeneration policies and case studies. Sustainable, affordable and healthy housing. Creating prosperous places and vibrant communities. International perspective on planning and sustainable development.

<b>Module Overview</b>
This module aims to develop your knowledge and critical understanding of planning law, policy and procedures with particular reference to the English planning system. It also increases your knowledge and critical understanding of the property development process.

**Additional Information**

This module develops knowledge and critical understanding of planning and sustainable development.

**Assessments**

<b>Assignment Category</b>	<b>Assessment Name</b>	<b>Weight</b>	<b>Exam/Test Length (hours)</b>	<b>Learning Outcome Mapping</b>
Presentation	Group Presentation	40	0	MLO1, MLO4, MLO2
Report	Group Report	60	0	MLO1, MLO3, MLO4, MLO2
