Aims and Outcomes

Aims	This module aims to provide an overview of the key concepts and theories of project team working. The module will explore the key concepts and theories associated with management and organisational behaviour which influence people and project-orientated team working. The underlying focus of the module will be practice based, which will give participants the knowledge to effectively lead real and virtual project-orientated teams.

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Define, evaluate and apply key theories and concepts associated with managing people and teams, within the context of an inclusive construction project environment.
MLO2	Critically appraise key theories and techniques associated with an organisation, organisational structures and management processes.
MLO3	Evaluate professional ethics and apply ethical values to situations and decisions.
