Aims and Outcomes

Aims	The aim of this module is to equip the student with advanced technical principles, with a concentration on original, inventive, collaborative and company-led contemporary performing arts practice.
------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

After completing the module the student should be able to:

Learning Outcomes

Code	Number	Description
MLO1	1	Evaluate and embody a wide range of advanced physical, vocal techniques in performance.
MLO2	2	Develop methods for adapting artistic stimuli into theatrical performance.
MLO3	3	Systematically implement a methodology for character creation and performance.
MLO4	4	Collaborate to a professional industry standard as creative ensemble member.
MLO5	5	Engage, using sophisticated strategies to reflect on your own practice as well as contribute to critical reflection of company created work.

Module Content

Outline Syllabus	Students will build on techniques and practices from Acting Technique I, with an emphasis on extending knowledge of key practitioner approaches and wider contemporary arts practice, to realise an individual approach to performance making. Students will continue to engage with physical and vocal approaches, identifying apposite technical creative and working solutions as part of a critically informed strategy when creating and realising practical works. Students are expected to further develop the ways in which they integrate research in their practice and methodology, documenting, evaluating and disseminating their technical and practical knowledge.
