-------------	--

## Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Develop a critical awareness of all phases of a project.
MLO2	Evaluate the relationship between project management processes and methodologies.
MLO3	Determine the difference between portfolio management, governance and programme management.
MLO4	Develop a critical awareness of the issues involved at the strategic, operational and project level.
MLO5	Evaluate the relationship between strategic, operational and project levels, and the broader environment in which operational effectiveness can be achieved.

## Module Content

<b>Outline Syllabus</b>
<p>The module will cover a wide a range of project management topics considering the phases of the project: definition, planning, execution, control and closure. Each of the above themes will be examined from a theoretical and practical perspective. The module will provide a broad overview of project deliverables and their role in sanctioning subsequent phases. The importance of capital effectiveness, portfolio management, programme management, project governance will be introduced, with an emphasis on operational effectiveness.</p>

## Module Overview
