| Steve Bonsall | Y      |

**Academic Level:** FHEQ7      **Credit Value:** 60      **Total Delivered Hours:** 600  
**Total Learning Hours:** 600      **Private Study:** 0

### Delivery Options

Course typically offered: Standard Year Long

| Component | Contact Hours |
|-----------|---------------|
| Lecture   | 10            |
| Online    | 590           |

**Grading Basis:** 40 %

### Assessment Details

| Category | Short Description | Description   | Weighting (%) | Exam Duration |
|----------|-------------------|---|---------------|---------------|
| Essay    | AS1               | Project Report 1500 Words   | 5             |               |
| Essay    | AS2               | Presentation (10-15 minutes to a panel of not less than 3 academic staff) | 10            |               |
| Essay    | AS3               | 3 Final dissertation 10 - 15000 words (40 - 60 pages)                     | 85            |               |

### Aims

*To develop a student's ability to conduct an independent investigation, be able to present the proposal at a presentation and to develop competence in communicating its outcome in a logical, clearly written dissertation*

## Learning Outcomes

After completing the module the student should be able to:

- 1 Prepare a specification for a project
- 2 Present a project proposal to a panel
- 3 Conduct an independent investigation of a substantive nature
- 4 Write a well structured logical dissertation which communicates the results of the investigation and includes critical analysis of results and dissertation methodology
- 5 Makes proposals for future work

## Learning Outcomes of Assessments

The assessment item list is assessed via the learning outcomes listed:

|    |   |   |   |
|----|---|---|---|
| CW | 1 |   |   |
| CW | 2 |   |   |
| CW | 3 | 4 | 5 |

## Outline Syllabus

*The student will prepare, in conjunction with a supervisor, a specification for a project. The student will present that project outline to a panel and attend the presentations given by other students.*

*Investigative techniques in conjunction with a supervisor.*

*Compilation of project findings in a final report*

## Learning Activities

Preparation of a project proposal, literature search, independent investigative activities in pursuit of the project aims, compilation of the written project.

## Notes

The student formulates a substantial project in conjunction with the route leader, a supervisor and relevant industrial partners. The project outline is presented to a panel before substantial investigation takes place. A substantial dissertation is written and submitted for examination by supervisors and an independent assessor at the end of the investigation.
