Notes

The dissertation builds on previous learning from the Research Skills Analysis and appropriate subject specific modules, with the learning outcomes being achieved through a 20,000 word dissertation that applies managerial concepts and research techniques to critically investigate an organisational issue or problem. The expectation is that for this in-depth advanced study students will be capable of operating as independent critical thinkers, although appropriate developmental support will be provided through individual contact with a designated supervisor.

Reflections upon the learning process, including methodological issues, is important throughout this module. All students will be required to submit a disc showing the different versions of their methodology chapter throughout the dissertation period.

Output:-

- a) 2 hard bound copies (20,000 words) with electronic copy.
- b) 1 'methodological' draft chapters e-version (disc)
