Teaching Responsibility

LJMU Schools involved in Delivery
LJMU Partner Taught

Partner Teaching Institution

Institution Name
Unicaf

Learning Methods

Learning Method Type	Hours
Online	20

Module Offering(s)

Offering Code	Location	Start Month	Duration
JAN-PAR	PAR	January	28 Weeks

Aims and Outcomes

Aims	To provide the student with the necessary knowledge and insight to ensure a coordinated approach to the management of patients/clients with a long term condition.
-------------	--

Learning Outcomes

After completing the module the student should be able to:

Code	Description
MLO1	Demonstrate critical knowledge of the physical, psychological behavioural and socio economic impact of living well with a long term condition and multi-morbidity with specific focus on common clusters of conditions
MLO2	Critically discuss the national and international policy context for people with long term conditions whilst tailoring local services and interventions to meet the personal outcomes of the individual
MLO3	Critically explore the barriers to multi-disciplinary, inter-agency and partnership working in the management of long-term conditions, and synthesise possible solutions

Module Content

Outline Syllabus
Aetiology and diagnosis of long term conditions, pathophysiology of long term conditions, complications related to long term conditions, multi-morbidity, pharmacology related to long term conditions, prevention of long term conditions. Rehabilitation, NICE guidance, Self care, promoting independence, empowerment, health literacy and the Expert Patient. End stage complications, Palliative care, Partnership working, shared care arrangements, admission avoidance, legalities involved in Long term Conditions, psychological care, diversity.

Module Overview

Additional Information

Engagement in this module will focus on the approaches to providing nursing care for patients with long term conditions whilst advancing your understanding of person-centred approaches to improving services for people with multiple conditions globally, as identified in national and international policy.
