Module Content

Outline Syllabus	Contemporary business environment Planning, organising, monitoring and controlling in contemporary business Being a leader of a contemporary business Facilitating team involvement Professional development plan Accounting techniques for planning and controlling Business information for decision making Interpretation of financial statements Long-term financial decision making – NPV, Payback, ARR Short-term financial decision making – costing methods Company valuations
Module Overview	
Additional Information	This module integrates knowledge, skills and tools of management used in a modern, commercial business. The finance element provides sufficient information to enable the student to have a comprehensive understanding of key financial measures used within business and the wider economy. The key to the success of the module is for students to critically evaluate and apply the knowledge and skills learnt to business situations and gain from sharing ideas and approaches to a wide range of common business situations.
