#### Aims and Outcomes

Aims	This module looks to provide a grounding of the regulatory framework of the multilateral trading system. The module will cover the World Trade Organisation including the institutional and substantive law. The module will investigate the core disciplines relating to international trade in goods and services and market access rules. It will also provide critical examination of trade disputes and the WHO system that looks to resolve the disputes.
------	---

**After completing the module the student should be able to:**
